

Company/University Profile Information

Organization	PA Consulting Group
Background of organization	PA Consulting Group operates worldwide from a UK base with over 40 offices in approximately 20 countries including Cambridge, MA and Washington, DC. PA has a long track record of performing ground-breaking system Dynamics work, with over four decades of experience dating back to 1963 (via our acquisition of Pugh-Roberst Associates) We use System Dynamics and other analytical approaches to help public and private sector organizations tackle some of their most complex challenges. We focus on taking a pragmatic approach to develop rigorous yet timely insight to help our clients work through difficult issues.
Address	PA Consulting Group One Memorial Drive Cambridge, MA 02142
Type of SD work	We use System Dynamics in a wide range of ways, from developing strategic causal maps to help frame and communicate, to building large, validated models to support major public and private sector organizations policy and decision-making.
Typical career path	Career path depends on individual experience and performance, with the opportunity to contribute to a growing team working on challenging and important issues.
