

**5<sup>th</sup> Latin American System Dynamics Conference**  
**Buenos Aires, Argentina**  
**Nov 7th - Nov 10th**

**Introduction**

In the context of the annual conferences organized by the Latin American chapter of the International System Dynamics Society; the Buenos Aires Institute of Technology (ITBA), through the Department of Industrial Engineering, and its System Dynamics Centre, has the pleasure of formally announcing the 5th. edition of the Latin American System Dynamics Conference.

Previous editions have been hosted in Mexico, Chile and Colombia.

**ITBA**

The conference will be held in the traditional premises of the Instituto Tecnológico de Buenos Aires (ITBA), a top regional engineering school, which offers different undergraduate, graduate and postgraduate programs, and has a myriad of agreements for students and professors exchange with universities from all over the world.

**Buenos Aires, Argentina**

This year's conference will be hosted in Buenos Aires, a vibrant city that never sleeps. The city combines an impressive architecture, with beautiful parks, antiques and flea markets, bookstores, coffee stores, museums, restaurants, an opera theatre which is internationally acclaimed, and many, many other theatres. Buenos Aires is a hub for travelling to other touristic destinations, such as Bariloche, Ushuaia, Mendoza and others.

**Puerto Madero**

The Buenos Aires Institute of Technology (ITBA) is located in the chic neighbourhood of Puerto Madero, close to Buenos Aires downtown. This area is famous for its upscale restaurants, and for the sophisticatedly designed hotels and building complexes,

**Argentine Beef** (no explanation needed)

## **Invitation to participate and to attend**

The Conference's organizing committee invites all interested people to send their papers' extended abstracts – 4 pages - to the email address [congresods@itba.edu.ar](mailto:congresods@itba.edu.ar)

Papers could be elaborated and submitted either in Spanish or English.

All papers that are going to be approved by the refereed evaluation process are going to be included in the conference proceedings, independently of being presented or not.

## **A cosmopolitan, rich and diverse learning experience**

We expect a multinational community of systems thinking and system dynamics practitioners coming to the conference, not only from Latin America, but from other regions as well.

## **More**

Additional information could be found (in Spanish) in the Conference's website:

<http://www.itba.edu.ar/dinamicadesistemas>

## **Conference due dates**

Aug 4 <sup>th</sup> 2007	Submittal of extended abstract
Sept 1 <sup>st</sup> 2007	Notification of acceptance
Sept 25 <sup>th</sup> 2007	Full paper submittal
Oct 9 <sup>th</sup> 2007	Signing up for parallel and plenary sessions speakers
Oct 31 <sup>st</sup> . 2007	Conference starts
